

Distributed Energy Road Show

Distributed Energy Resources...The Power of Choice

Next Stops:
St. Croix on November 18
St. Thomas on November 20!

The U.S. Department of Energy's Distributed Energy Road Show is coming to you!

The **Virgin Islands Energy Office**, the **Virgin Islands Water and Power Authority**, and the **U.S. Department of Energy** are co-hosting two Road Shows on the U.S. Virgin Islands: St. Croix on November 18, and St. Thomas on November 20.

At each one-day workshop, participants will learn the ropes of installing, operating, and interconnecting new technologies from the experts—technology manufacturers and distributors, fuel experts, and local energy officials. Information on fuel production and storage safety will be presented. The utilization of excess heat from distributed energy units for facility heating and cooling needs (combined heat and power) will also be discussed. Participants will receive *hands-on training* with photovoltaics (PV), fuel cells, microturbines, and more.

Come “kick the tires” on the latest energy technologies for your business, home, or facility! *Registration is free!*

St. Croix

Tuesday, November 18, 2003, 8:00am-4:00pm

The Nature Conservancy

52 Estate Little Princess, Christiansted, VI 00821

St. Thomas

Thursday, November 20, 2003, 8:00am-4:00pm

Coral World (Road Show will be held at the Blue Water Terrace)

6450 Coki Point, St. Thomas, VI 00802

To register for one of these Road Shows, please contact:

Bevan R. Smith Jr.

Virgin Islands Energy Office

E-mail: iyame@excite.com

Phone: 340-773-1082, Ext. 2254

If you are interested in potentially receiving Continuing Education Units (CEUs) for your participation in one of these Road Shows, please contact Bevan Smith (contact information provided above).

Attire: Business Casual

Lunch will be provided
